GO IT

16.03.2026

Oleksandr Sielikhov

has successfully completed
Data Scientist course at GoIT

Certificate

Anton Chornyi
CEO of GoIT

Unique ID
44053

goit.global

GO IT

goit.global

Supplement to Data Scientist course certificate

General information

Soft Skills
2 classes
Total hours: **5**

Python Basic
Total hours: **10**

Python Core
16 classes
8 assignments on Tech Skills
Total hours: **131**

Data Science and Machine Learning
32 classes
16 assignments on Tech Skills
1 team projects
Total hours: **242**

Career skills
2 classes
Total hours: **10**

Course total hours: 398

GO IT

goit.global

Supplement to Data Scientist course certificate

Python core units

Unit 1. Introduction to Python
Unit 2. Flow control and functions
Unit 3. Working with date, time and advanced string operations
Unit 4. Working with files and the modular system
Unit 5. Functional programming and built-in Python modules
Unit 6. Basics of working with classes
Unit 7. Advanced object-oriented programming in Python
Unit 8. Serialization and copying objects in Python

GO IT

goit.global

Supplement to Data Scientist course certificate

Data Science and Machine Learning units

Unit 1. Python Development. Docker
Unit 2. Introduction to SQL databases
Unit 3. NoSQL basics on the example of MongoDB
Unit 4. Introduction to Data Science
Unit 5. EDA. Basics of statistics
Unit 6. Classical machine learning
Unit 7. Classification. Model evaluation
Unit 8. Other supervised learning algorithms
Unit 9. Unsupervised learning
Unit 10. Recommender systems
Unit 11. Deep learning
Unit 12. NNs Hyperparameters tuning
Unit 13. Convolutional neural networks
Unit 14. Sequence Models
Unit 15. Intro to NLP. State of the art NN
Unit 16. Dash interactive web applications
